

COMPUTER SCIENCE PROJECT (I)

INTRODUCTION

National Chiao Tung University, Taiwan

By: I-Chen Lin

About the course

- Course title: **Computer Science Project (I)**
- Lectures: EDB27, 13:30~15:20
- Course webpage: <http://caig.cs.nctu.edu.tw/www/course.html>

- Instructor: I-Chen Lin (林奕成)
 - Email: ichenlin@cs.nctu.edu.tw
 - Office: EC704
 - Tel ext: 56684

- TA: 陳威丞、鄭暉達
 - Email: cwt917661.cs96@nctu.edu.tw , davidjerro.cs96@g2.nctu.edu.tw
 - Office: EC229b
 - Tel ext: 56676

The course & your project

- CS project
 - 1~4 members per group
 - Two semesters
 - CS project II will be taught in English.
 - Start to work with advisers and research labs.
 - Start to work on something not introduced in textbooks.
 - E.g. paper study, practical system implementation, etc.
 - Share your study and work through presentation and project contest.

The rule

- Check announcement of the course webpage.
- Present your study, idea and achievement in class.
 - 2~3 times, dependent on group amounts.
- Attend every talk and don't forget to sign your name.
- Ask at least one question in this semester.
- Grades (temporarily)
 - Your base score:
 - 91-95: college-award-winner level
 - 86-90: department-award-winner level
 - 75-85: general level
 - <75: bad
 - Absence without reasonable excuse
 - -5 (since the 2nd absence, or the 3rd if you have 3 questions in total)
 - -10 (miss your report)
 - Bonus (presentations)
 - -5 ~ +10
